

Robin Benitez Mora

FULL STACK SOFTWARE DEVELOPER

robinbenitez@yahoo.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#) | [Medium](#)

SUMMARY

Motivated Back-End (Software Developer) looking for an exciting opportunity to join a fast-growing company, where my development work will make a difference. I have always felt curiosity and excitement about technology and continuous learning and development. Experience in coding, troubleshooting, and testing for my projects while at Microverse. Relevant skills include JavaScript, React, and RoR, as well as data structures and debugging.

SKILLS

Front-End: JavaScript, React, Redux, HTML5, CSS3.

Back-End: Ruby, Ruby on Rails, PostgreSQL, APIs.

Tools & Methods: Git, GitHub, Responsive Development, JWT, TDD/Testing, RSpec, Jest, Webpack.

Professional: Pair-Programming, Teamwork, Decision Making, Communication, Mentoring.

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS

Remote

Full Stack Software Developer

2022 – Present

Proficiency in Full-Stack development subjects, while building multiple Full-Stack projects both independently and through pair programming with international teams, giving/receiving code reviews.

My Budget Manager — Created a budgeting app that simplifies finance management through visual expense tracking and enables informed spending decisions

- **Built with:** CSS3, Ruby on Rails, PostgreSQL, and APIs.

[Demo - GitHub](#)

Crypto Coins — Created to provide users with real-time information about the top 100 cryptocurrencies in the market, enabling them to make informed investment decisions.

- **Built with:** CSS3, JavaScript, React, Redux, Jest, and APIs.

MICROVERSE

Remote

Mentor

2022 – Present

- Mentored 14 junior web developers with technical support through code reviews.
- Provided over 80 hours of technical support to maintain motivation and productivity within given deadlines.

DEXCO S.A

Maintenance Manager

July 2017 – July 2020

- Trained technical maintenance personnel in planning and teamwork for 180 hours.
- Developed \$1 million worth of plant improvement projects over 3 years.

EDUCATION

MICROVERSE

Remote Full Stack Software Development Program, Full Time

- Honed my technical skills with over 1300 hours of practice in algorithms, data structures and full-stack development. I expanded my portfolio with hands-on experience in Ruby, Rails, JavaScript, React and Redux.
- Developed programming skills by working remotely with peers from around the world using GitHub, industry-standard gitflow, and daily standups.

PEREIRA TECHNOLOGICAL UNIVERSITY

Mechanical Engineer
